Activity Description

April 9th - Kahoot

A quick game of Kahoot to guess a series of fun facts about the staff and the center.

April 14th - Healthy Eating/Immune System Group

A conversation about the role of the immune system, immune boosting foods, and healthy eating/snacking options.

April 16th - Informal Chat

We can leave this time open and let the youth guide the discussion. Staff will have pre-selected conversation starters if there is lack of participation.

April 21st - Guess the Flag | Send Q&A Questions

Using Kahoot, we can do a quick quiz of flags and see who can guess the names of the countries. Since the next video chat will include a Q&A session, staff will explain the process of submitting questions throughout the week.

April 23th - Q&A Session

Using anonymous questions submitted by youth, staff can lead a conversation and discuss answers with youth.

April 28th - Setting Routines/Refresh Group

A group based on setting routines during quarantine, discussion of different creative activities around the household or outdoors.
